| <p>quotaEOSCMSUser.sh is so broken that it would not change the quota in most cases.<br/>The problem is deep in vulcan api, the identifier is not what is expected.<br/>This requires a careful look at what is recorded in the db.</p> <p>It is not urgent yet it needs to be fixed.<br/>Create this ticket just to remember it.</p> |                |                        |            |
